**Place of Death:** Conexus Art Center - Stage  
**Cause of Death:** Multiple Head Trauma Resultin[sic] in hemmorage,  
edema, brain injury  
**By What Means:** Accidental

### Recommendations:

**TO: Secur-Force AKA “t-shirt security” or any other security agency.**

We recommend their duties be written by Conexus so Secur-Force staff are fully aware of what is to be expected.

They should use consistent communication with Conexus security via a telecommunication device to coordinate breaks, or backup, etc.

Security, using their judgment approach attendees who do not look of age, who have a drink in hand, and ask for ID.

**TO: Luther University Students Association**

Consistency at the event table with event security to determine which of the two are ultimately responsible for checking guests re-entering.

Review the need for a backpack and coat check area, depending on the event.

Aside from the sign-in sheet for all guests, that there be a guest list provided to Luther by their hired event staff as to whom they are expecting as assistance.

For example: The DJ who had invited his friends, that he provide a list to the main table, to verify they are allowed in.

**TO: Conexus Art Centre**

Security to be present at an event at all times.

Review the number of security people required at Conexus Arts Centre during multiple simultaneous events.

T-shirt security should have radios so they can remain in consistent communication among themselves and Conexus Arts Centre security for breaks and emergency situations.

Keep all doors locked that would lead to potential fall hazards. Post Fall Hazard signs on all doors that directly lead to fall hazard areas.

Have a house-phone on stage.

Review all areas without natural light, to ensure there is emergency lighting, or emergency flash lights, or direction to light switches.

All outside doors leading into the facility should be locked and secured when not in use.

Provide hired security with written expectations.
